

Product	Description	Price €
PHIDIAS – MS	<p>Photogrammetric software for 3D multi-image measurement in digital photographs. Optimized calculation of orientation parameters with bundle adjustment, unlimited number of images, simultaneous camera calibration, automatic detection of target signs, projective image rectification, generation of image maps, orthophotos and unwrapped images, stereo measurement, combined measurement with 3D pointclouds (3D-Monoplotting).</p> <p>Software maintenance, including free download of updates and support by email and phone is included for the first 6 month.</p> <p>Optional stereo hardware (graphics card with support for Stereo OpenGL and LCD shutter glasses) is not included.</p>	9.000,-
PHIDIAS – Light	Functionality is identical with PHIDIAS-MS, only the number of images per project is limited to 20.	7.000,-
PHIDIAS – Scan3d	<p>Software for combined measurement in photogrammetric images and 3D pointclouds from 3D laserscanners (i.e. RIELGL LMS with high resolution digital camera), direct import of orientation parameters and camera calibration from RiScanPRO project files. All measurement functions of PHIDIAS-MS available, including automatic extraction of geometry from pointclouds.</p> <p>Bundle adjustment program is not included, but orientation parameters of additional photos can be calculated with single image orientation by spatial resection.</p>	5.000,-
PHIDIAS – Mono	Photogrammetric software for image rectification by projective transformation, generation of images maps or photorealistic models built from rectified planar image shapes, 3D-measurement in planar surfaces. Combination with pointclouds is not possible.	1.500,-
PHIDIAS – Leasing	Leasing License for the duration of at least 3 months. In the case of a purchase, 70% of the payments are taken into account.	5% of license price per month
PHIDIAS – Academic	License for Universities and academic institutions for research and educational purposes. Functionality is identical with PHIDIAS-MS.	2.250,-
PHIDIAS – Classroom	Additional license for PHIDIAS-Academic, only for educational purposes and only usable with network access to license server.	500,- per seat
MicroStation V8	PHIDIAS-MS is an MDL application and runs only with MicroStation V8 (Version 08.01.xx.xx and higher). The prices above for PHIDIAS do not include MicroStation.	call for quote
PHIDIAS – Service	<p>Software-Service contract, including free software updates, technical support by telephone and email, access to online ...</p> <p>Duration at least one year.</p>	10% of license price per year
Training	<p>Individual training for PHIDIAS and MicroStation.</p> <p>In the case of on-site training outside Aachen plus travel expenses.</p>	750,- per day

Prices for multiple licenses: Call for quotation

All prices plus VAT.
